Employee Manager Test Plan

Acceptance Criteria:
- Can I update and edit the employee list and employee files?
- Is the Name, Phone number, Title and ID number listed?
- Does a correct error message appear?

Entry Criteria:
- Able to view the app and click on the list name.

Exit Criteria:
- All tests completed.

Overview: **Test 1**

Mock Employee List
Links: https://github.com/Venovo/CheckPoint3Project

What's included:

- Populate a dummy employee list. When updates are made to each employee record through the editor, the list should update.
  - Each employee should have:
    - Name
    - Phone Number
    - Title
    - Whole/positive ID number
    - Email Address

Overview: **Test 2**

Create Employee Editor
Links: https://github.com/Venovo/CheckPoint3Project

What's included:

- Employees in the contact manager should be editable.

- Save/Cancel only enabled when edits have been made.
- Saving changes updates the UI.
- The invalid field is underlined in red
- Fields cannot be saved while invalid
- Delete Employee

Overview: **Test 3**

Error Message
Links: https://github.com/Venovo/CheckPoint3Project

What's included:

- An Error Message should appear when incorrect info is entered into the employee editor.
  - Name (1-30 characters long)
  - Phone (10 digits long)
  - Title (1-30 characters long)

Pass or Fail Acceptance Criteria:
- Can I update and edit the employee list and employee files?
- Is the Name, Phone number, Title and ID number listed?
- Does a correct error message appear?
